EXPERIENCE

FinZ (PhysicsWallah) | Noida, India | Dec 2024 to Present

Strategy Associate, Employee Financing

- Launched the Employee Financing vertical from concept and scaled it to Rs. 3 to 4 Cr monthly disbursement across 4,000+ monthly users, owning product design, operations, and performance monitoring.
- Designed two loan products end to end, Salary Advance and Salary Topup, owning eligibility rules, pricing constructs, repayment flows, and collections design.
- Authored a CIBIL-based credit policy and a salary-deduction repayment architecture holding defaults at 1.5 to 2%; replaced manual review with rule-based eligibility, enabling instant approvals and cutting disbursement turnaround time.
- Ran user research with 5,000+ employees through interviews and surveys; resulting initiatives contributed to a 12% lift in acquisition.
- Owned ESOP Financing operations end to end, from onboarding and credit checks through share pledge, disbursement, and closure, across credit, NBFC, and depository stakeholders.

Edumentor Educational Services | India | Apr 2023 to Jun 2023 | Zonal Manager Intern

- Scoped and delivered a one-month student engagement program by translating business objectives into a project plan and managing execution through to completion.
- Spearheaded a 20–25 member team executing daily operations for a multi-center activation, coordinating schedules, tasks and on-the-ground delivery.

PROJECTS

ESOP Loan Repository | Jun 2026 to Sep 2026 | Live in production

- Unified 11 live data sources across 5 teams into one canonical model covering approximately 274 loans, computing every repayment schedule from a single interest engine; reconciled against Rs. 64 Cr of bank credits.
- Surfaced previously invisible exceptions: refunds paid where none was owed, and collateral released against unrecovered loans. Shipped 108 production releases directing AI coding tools, owning domain logic and correctness.

Employee Financing OS | Jul 2026 | PRD to working system in 3.5 weeks

- Replaced a spreadsheet and email monthly cycle for payroll recovery, invoicing, and payment mapping across two lenders: 26,145 loans, Rs. 34 Cr active book, 2,886 employees, 7 user roles.
- Built a versioned, rollbackable upload engine with a data quality gate parking any batch moving row counts over 20%; 220 automated tests, zero unintended data movement.

SKILLS

- Product: 0 to 1 launches, PRDs, pricing constructs, user research, funnel metrics
- Product Operations: Process Automation, SOP design, reconciliation, exception handling, turnaround time reporting
- AI and Data: Claude API, LLM prompt engineering, evaluation design, SQL, Python, Power BI
- Domain: Consumer Lending, Underwriting, Collections, Compliance workflows, Payroll integrations

EDUCATION

BSc (Hons) Computer Science, Minor in Mathematics | Aryabhata College, University of Delhi | 2021 to 2024

- Coursework: Machine Learning, Artificial Intelligence, Data Structures and Algorithms, SQL and DBMS, Python Data Analysis

RLB Group of Schools, Lucknow

Class 12: Physics, Chemistry, Mathematics : **96%**

Class 10: **97%**
